MEDIUM DUTY BREATHING AIR HOSE LSBAH005

MEDIUM DUTY BREATHING AIR HOSE LSBAH005

The Luno Systems LSBAH005 breathing air hose is designed for applications where a good quality, but cost-effective breathing hose is required.

The hose provides reasonable chemical resistance and durability and a wide range of operating temperatures.

SPECIFICATION	LSBAH005
Lengths	25, 50 , 90, or 100 Metres
Material & Construction	Reinforced braided PVC
EN Standard Conformity	EN14593-1, EN14594
Chemical Resistance	Most fuels, oils greases, solvents (see chemical resistance data)
Size	14mm external, 8mm bore
Flexibility	Medium
Min. Bend Radius	120mm
Nominal Weight	200g/m
Operating Temp.	-20 to +50°C
Colour	Blue (other colours available on request)
Terminations	Luno stainless barbed tail and ferule with CEJN Breathing couplings
Antistatic Properties	No

- To specify hose length when ordering, use part no. together with required length (e.g., LSBAH005-50M = Medium Duty Blue Breathing Air Hose, length = 50m)
