

# LUNO SYSTEMS ANNOUNCES STRATEGIC PARTNERSHIP WITH MUI LEE ENTERPRISE

We are happy to announce that Luno Systems Limited and MUI LEE have mutually agreed a strategic partnership for Malaysia.

The goal of this partnership is to bring products, services and knowledge in service of industries such as Oil & Gas, Onshore & Offshore Rigs Operations, Petrochemical Refineries, Heavy Industries, Chemical Companies etc.

Luno Systems is a manufacturer of life support systems and associated equipment for work in high risk environments. Luno Systems are dedicated to life support systems and breathing air solutions for work in areas immediately dangerous to life and health (IDLH).

From breathing air helmets with built-in communications and harnesses for reactor inert entry to breathing air cylinder trailers and compressor systems for tank cleaning work, we are passionate about supporting clients working in some of the most hazardous work environments today.

Mui Lee Enterprise is a one of the largest companies in Malaysia that specializes in the sales and servicing of life saving equipment, fire fighting equipment, fire and gas detection systems, personal safety and marine safety equipment.

They are approved service provider by Government Bodies, Classification Societies and Manufacturers.

With fully equipped service stations and multiple teams of qualified service technicians located in Miri, Bintulu and Labuan, they are able to address your immediate servicing needs.
